

Blaze Guard

Fireproofing like never before

Steel fails at 600°C. Fires burn hotter. 200 degrees – that's the line between survival and collapse. And the right paint can save everything

Problem

The lack of
fire
protection

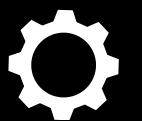

Lack of
non-toxic
products

Who has it

Construction
companies

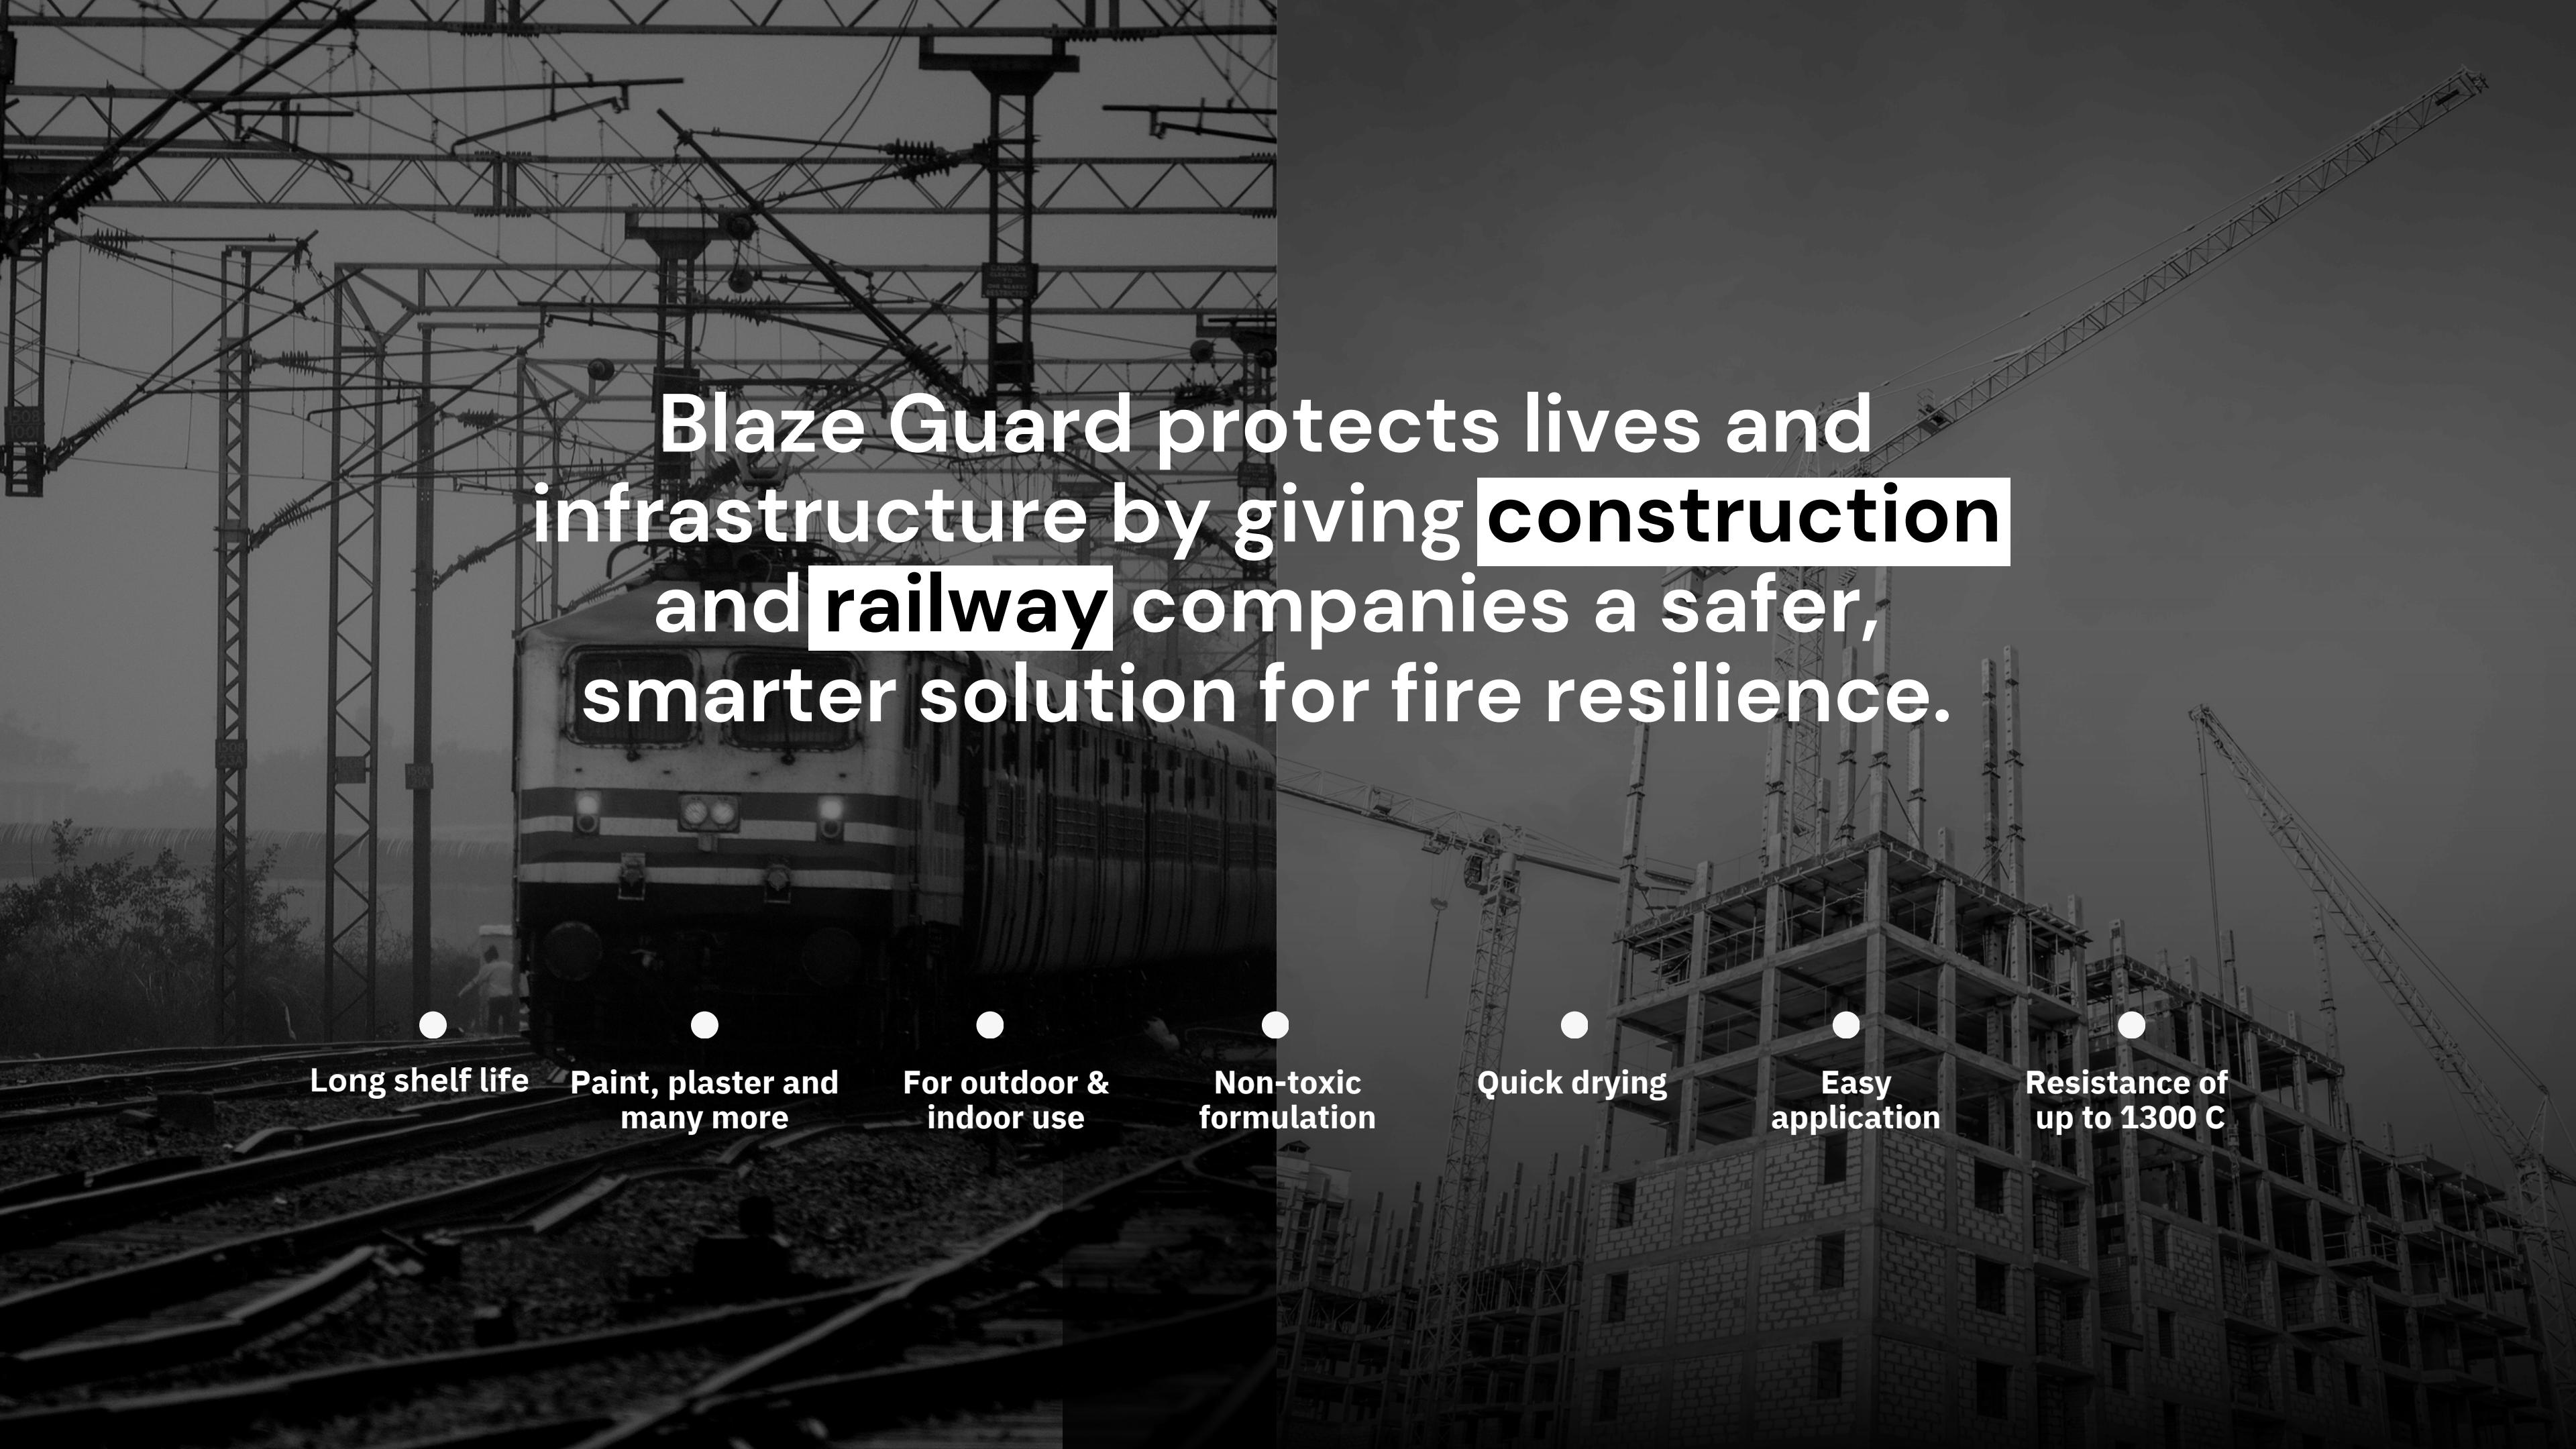

Industry
manufacturers

Opportunity

No VOC release
during burn
fire-free
environment

Blaze Guard protects lives and infrastructure by giving **construction** and **railway** companies a safer, smarter solution for fire resilience.

- Long shelf life

- Paint, plaster and many more

- For outdoor & indoor use

- Non-toxic formulation

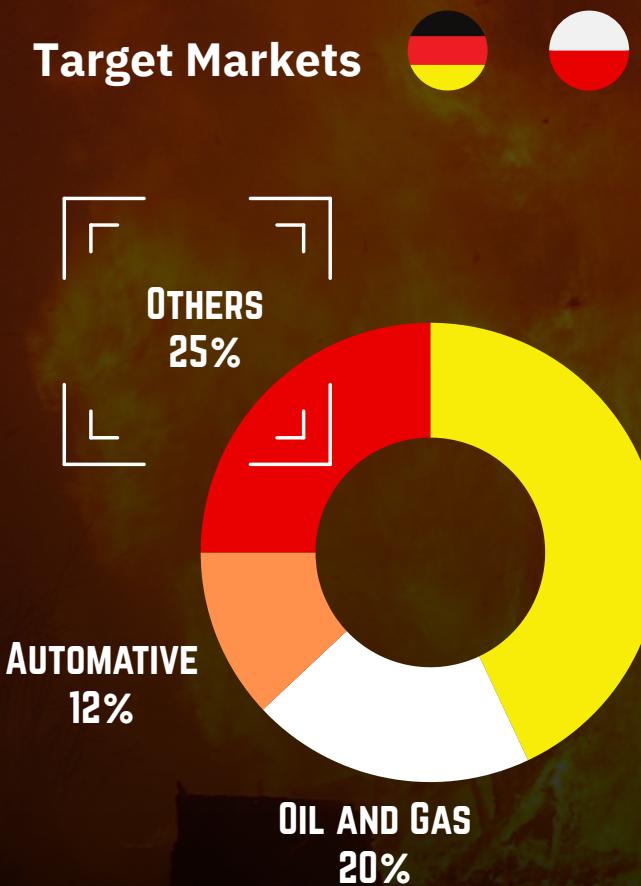

- Quick drying

- Easy application

- Resistance of up to 1300 C

Fire Protection Materials Market size

CAGR: 3.8% / YEAR

Next Steps

Focusing on **Construction** and **Railway** companies as first clients

Railway Companies - Mid-sized
50 - 100 trains |
1 ton of Blaze Guard material per train

Construction Companies - Mid-sized
An average production facility

2025

| in euros |

1.2B

550M

8.3M

2030

| in euros |

1.64B

703M

49M

in year 1
based on 10% tax for IPs
Revenue from 3 mid-sized clients
And production by a facility partner

How we go to market

Generate Awareness

High Credibility, Direct Engagement, Immediate Leads

Industry expo events & Pop-up stands

Pitching Competitions & Accelerators

Build a Network

We'll leverage social and industry partnerships for brand advocacy

Direct engagement on site

Industry & R&D partnerships with technological Parks & Universities

Pilot projects

Construction & Railway brands showing their commitment to sustainability & Fire Safety

Mutual R&D to solve their exact problems inhouse

Small scale test projects & DEMO

Making \$ via Intellectual Property

Revenue Streams

- 1) Manufacturing
- 2) Licensing - 10% of net profits

A comparison between Blaze Guard and leading fireproof paints from different classes

Joint Ventures

We'll partner with established fireproofing companies for shared production and market penetration.

FIRST RESULTS

IP PROTECTION AND THE FIRST CLIENT

CLIENT EXPANSION

What we will achieve

- IP protection received
- Product finalization
- First contract signage
- Product Certification

How YOU can help

- Warm leads to decision-makers in construction and rail for sales and pilots
- Partnerships with distributors and manufacturers for scaling and expansion
- Strategic advice and funding connections for growth

Blaze Guard

Thank you for the Attention!
